SCOTSMAN PRODIGY PLUS FEATURES

AUTOALERT™ INDICATOR LIGHTS

Relocated to the lower left corner of the front panel for enhanced visibility, our innovative LED lights keep you informed about your unit's operating status.

FRONT-LOCATED AIR FILTER

The reusable air filter on all Prodigy Plus® 22" and 30" air-cooled cuber units has been relocated to the front for added clearance and breathability.

SELF-ALIGNING FRONT PANEL

Redesigned for easy removal and simple access to all serviceable components, this robust front panel features screws located easily within reach.

ONE-TOUCH CLEANING

The Prodigy Plus® cuber has a streamlined ice head cleaning process that runs with the single push of a button, eliminating the need for service or monitoring by an operator.
